

TÜV NORD GROUP

CERTIFICATE

It is herewith confirmed that

RAINER ZIETLOW, MARIUS BIELA and MATTHIAS PRILLWITZ (all Germans) covered a distance of 18.007 km with a Volkswagen Touareg within 21 days 17 hours and 18 minutes (using a charter plane over the Mediterranean Sea from Adana/Turkey to Mersa Matruh/Egypt). The time includes a 13 days stop for repair of the Touareg at Dar Es Salam. The team started at Nordkapp (the most northern tip of Norway) on September 21st 2014 at 3:20 am and arrived at Cape Agulhas/South Africa (the most southern tip of Africa) on October 12th 2014 at 8:38pm. Without the time for repair of the Touareg the team would have driven the distance from Nordkapp to Cape Agulhas in 8 days 10 hours and 26 minutes.

Cape Town, October 13th 2014
